

CLARIDGE LIBRARY ROOM TRANSFORMATION PROJECT

Completed: September 2020

HODC's Claridge Apartments provides affordable housing for 48 low-income individuals, most of whom work in Evanston. The single room occupancy building is located in Evanston's Lakefront Historic District.

This year, Designs for Dignity selected HODC as a recipient for an Impact Grant to make over the library room at Claridge. Designs for Dignity transforms non-profit environments through pro bono design services and in-kind donations.

HODC is grateful and proud to share the before and after images of this amazing transformation.

HODC and Designs for Dignity believe our tenants deserve a space that can instill dignity and inspire hope.

Furniture manufacturers of pieces donated by Designs for Dignity:
Coalesse | Herman Miller | Inscape | KI | Rework Office Furniture | Spec

HODC would like to thank the following for their in-kind donations of furniture, supplies, and labor:

Designs for Dignity | FINISHING CHICAGO | Peterson Picture Co. | Indecor, Inc.

HODC also expresses their gratitude to **Central Rug & Floors** and **Indecor, Inc.**, for providing services at a reduced rate.

The library at Claridge Apartments serves as the community room for the building. Due to the size of individual units, tenants use this room to meet with support service providers, friends, family, and property management.
